Pahokee Lions In Glades-Wide Meet

The Community Building in Canal Point was the scene Tuesday night of a Ladies' Night program staged by the Lions club of Pahokee. The occasion was used also to honor Dr. Walter H. Campbell of Miami Beach, third vice president of Lions International who made the feature address of the evening.

Okeechobee, Canal Point, South Bay, Pahokee and Belle Glade Clubs had representatives at the meeting.

In his address, the speaker stressed that when Lionism was founded in 1917, it was the first civic club organization formed for the sole purpose of giving service. There are now 17,000 Lions Clubs in 118 countries with a total of 600,000 members. Because of this world-wide spread of Lionism, with its high ideals of service to humanity, it has become an important factor in the promotion of international good will and friendship, he said.

Among officers present were Marlin Brubaker of Cocoa Beach, governor of District 35-D; Emmett Roberts of Belle Glade, international counselor; H. B. McCall of Belle Glade, deputy district governor, Region 5; Billy Ray Moseley of Pahokee and Hector A. Ouellette, zone chairman.

Rardin & Group To Seek Road Right-of-Way From State Board Next Tuesday

Several actions pointing toward additional road and recreational facilities in the Everglades were taken Monday by the county commission.

Commissioner Paul Rardin, Canal Point, told the board that a 3½ mile stretch of right-of-way needed for Ramie Road had been made available to the county and he won approval of his motion to call for bids for road construction in this project.

Rardin also asked permission—and was given it—to go to Tallahassee to appear before the State I. I. Board to obtain a mile and a quarter of right of way needed for a new road to serve a Sugar Co-Op being built in the Glades, one of several projects brought on by a growing sugar industry.

The right-of-way is needed badly to link the new Glades Sugar House with SR15 and its acquisition is strongly opposed by Garree Curlee, superintendent of the Glades Prison Farm. The prison farm manager evidently doesn't realize the vital importance of this particular stretch of proposed road.

It is on Tuesday of next week that Commissioner Rardin, County Engineer Middleton and County Attorney Johnston will journey to Tallahassee along with a representative group of Glades sugar growers and lay before the State I. I. Board the request for the right-of-way. No stone will be left unturned by the group to secure from the state this much-needed right-of-way for a new road leading to the mill.

Commissioner Rardin also announced that the U. S. Sugar Corporation had donated some three acres of land adjacent to a present county park at Canal Point, for enlargement of the recreational site. Rardin said the corporation is starting a new sub-division in the area and felt that additional recreational facilities would be needed. The original land grant for the park also came from the corporation.

"Today we need a nation of Minute Men . . . citizens who regard the preservation of freedom as a basic purpose of their daily life"

—JOHN FITZGERALD KENNEDY

10 days after his inauguration
as the 35th President of the
United States.

Twenty years ago, in the dark, uneasy days before Pearl Harbor, the Minute Man of Concord, timeless symbol of our Nation's determination to defend its freedom, emerged as the emblem of the U. S. Savings Bonds Program. When war came, the Minute Man became the rallying force behind the huge and overwhelmingly successful effort to back our fighting men with War Bonds.

In this, the 20th anniversary year of Savings Bonds, the Minute Man of Concord calls all Americans to an unrelenting effort to help preserve our peace and freedom, threatened by forces more powerful and resourceful than those we faced in 1941. Though this effort will take many forms, one way open to all is the continued investment in Shares in America, U. S. Savings Bonds, by "citizens who regard the preservation of freedom as a basic purpose of their daily life."

New $3\frac{3}{4}\%$ interest on U.S. Savings Bonds

*The Treasury explains why the new ones you buy and the ones
you own now are better than ever*

Q: How does the new $3\frac{3}{4}\%$ interest rate benefit me?

A: With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.

With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to $2\frac{1}{4}\%$ for the first year and a half; then a guaranteed 4% each year to maturity.

Q: When did the new rate become effective?

A: June 1, 1959.

Q: Does the new rate change the Bonds I bought before June 1, 1959?

A: All older E and H Bonds pay more now—an extra $\frac{1}{4}\%$ from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.

Q: Will the Bonds I own automatically earn their new rate?

A: Yes. You don't need to do a thing—just hold on to your Bonds.

Q: When my E Bonds mature, will they keep on earning interest?

A: Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.

Q: With the new interest rate, should I cash in my old Bonds and buy new ones?

A: No. The automatic $\frac{1}{4}\%$ increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.

Q: How are series H Bonds different from series E Bonds?

A: The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

Q: In what denominations can I buy series E and series H Bonds?

A: E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$7,500.00).

H Bonds: \$500, \$1,000, \$5,000 and \$10,000. They are priced at face value.

Q: How safe are U.S. Savings Bonds?

A: Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.

Q: What if my Bonds should be lost, stolen or destroyed?

A: You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.

Q: Where can I buy Bonds?

A: Buy E Bonds at any bank—it takes only a few minutes. Buy them automatically through the Payroll Savings Plan where you work. This Plan means you can have any amount you name automatically deducted every payday. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.

Q: How do I help strengthen America's peace power when I buy U.S. Savings Bonds?

A: Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.

YOU SAVE MORE THAN MONEY WITH U. S. SAVINGS BONDS

Christian Science Group Of Canal Point

The indestructible relationship of God and man will be emphasized at Christian Science church services Sunday.

Scriptural selections in the Lesson-Sermon on "Man" include the following verse (Psalm 18): "It is God that girdeth me with strength and maketh my way perfect."

A citation to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy states (p. 470): "The relations of God and man, divine Principle and idea, are indestructible in Science; and Science knows no lapse from nor return to harmony, but holds the divine order or spiritual law, in which God and all that He creates are perfect and eternal, to have remained unchanged in its eternal history."

On September 13 and 14, Mrs. J. Heller, WMU president of the Palm-Lake Association, will teach a leadership course at the First Baptist Church in Belle Glade.

Aerial Gateway To Europe—That's Fla.

MIAMI—Florida is looking forward to a new future as an aerial gateway to Europe.

The state, long a prime gateway to Latin America (received its third jet service to Europe when Pan American World Airways inaugurated this month a jet flight from Miami to Lisbon, Portugal.

Cunard Eagle earlier this year began a once-a-week flight from Miami to London, by way of Nassau and Bermuda. Another airline, Mexico's Aerovias Guest, is authorized to fly to Madrid, Spain, but has temporarily suspended service pending delivery of long-range jets.

Several advantages of having service channeled over the "sunshine route" rather than the Great Circle route are pointed out by airline authorities. European service from Florida is hundreds of miles shorter for many cities of the Western Hemisphere than the Great Circle route. Moreover, mid-Atlantic weather offers fewer hazards than the North Atlantic.

Miss Betty Jean Johnson Is Married To Lewis Minter Collins Jr. In St. Petersburg

Miss Betty Jean Johnson daughter of Mr. and Mrs. Robert M. Johnson of St. Petersburg, became the bride of Lewis Minter Collins, Jr. son of Mr. and Mrs. L. Her veil of silk illusion cascaded from a small queen's crown of pearls. She carried a bouquet of stephanotis and streamers centered with a large white orchid.

Miss Arlene Fillingim of St. Petersburg, maid of honor, wore a ballerina length gown of peppermint chiffon over taffeta. The dress had a matching lace jacket. Her

flowers were green tinted carnations centered with pink carnations and green streamers.

Mrs. M. W. Cary, Jr. of Fort Carson, Colo., sister of the bridegroom, was gowned similarly. Her nosegay bouquet was of pink carnations centered with green carnations and pink streamers.
